## Articles & Tutorials

### Cascade Layers

Una Kravets gives an introduction to CSS cascade layers and the `@layer` property, which allow you to create specificity-based layers and help organize your CSS architecture.

[Watch video](#)

### Make Beautiful Gradients

Joshua Comeau shows how to create rich, vivid, thoroughly-alive gradients by avoiding the “grey zone.”

[Read more](#)

### Responsive Image Gallery With Animated Captions

Stephanie Eckles explores a technique for creating a responsive image gallery that uses `object-fit` for responsive image scaling, `aspect-ratio` for consistent image sizes, a CSS Grid trick to replace absolute positioning, and CSS transforms for animated effects.
